

TALANOA DIALOGUE

FOR CLIMATE ACTION

Talanoa is a traditional word used in Fiji and across the Pacific to reflect a process of inclusive, participatory and transparent dialogue. The purpose is to share stories, build empathy and to make wise decisions for the collective good by sharing of ideas, skills, and experience through storytelling.

The Talanoa Dialogue was launched at the 2017 UN COP23 to help communities implement the Paris Agreement by asking these questions:

**Where are we?
Where do we want go?
How do we get there?**

Please join us for a showing of work and open discussion.

Presented by Social Ecological Systems for Spatial Design, a course examining climate change and biodiversity loss through the lens of social ecological systems and ecological economics.

April 30th • 3:30–7 pm
Office of Tech Management
4240 Duncan Ave, Suite 110
Open to the Public

Sponsored by the Office of Socially Engaged Practice, CityStudioSTL and in collaboration with the OneSTL Sustainability Lab and the Sustainability Exchange.
